

Module 1: Sustainable Development, Understanding Environmental Issues, and Sustainability

Activity: Environmental Issues Debate

Objective: To engage students in a critical discussion about environmental issues and sustainable development principles.

Instructions:

1. Divide the class into groups, assigning each group a specific environmental issue mentioned in Chapter 1.
2. Each group researches the causes, consequences, and potential solutions related to their assigned issue.
3. Organize a debate where each group presents their findings and argues for the importance of addressing their environmental issue.
4. Encourage students to use the principles of sustainable development discussed in Chapter 4 to support their arguments.
5. After the debate, hold a class discussion on the interconnectedness of these issues and the role of individuals in achieving sustainable development.
