

Module 5: Renewable Energy Sources

Activity: Renewable Energy Showcase

Objective: To help students understand and appreciate renewable energy sources and their applications.

Instructions:

1. Assign each student or group a renewable energy type from Chapter 3.
2. Have them research and prepare a presentation or demonstration showcasing their assigned energy source.
3. Organize a "Renewable Energy Showcase" where students present their findings to the class.
4. Encourage students to discuss the benefits of renewable energy sources and their applications in homes and schools, as discussed in Chapters 4 and 5.
5. Conclude with a discussion on the importance of clean energy and its role in sustainability.
